Position: Backend Developer

Location: DENMARK, Copenhagen

Loyal Solution’s sole purpose is disrupting the loyalty industry with new technology, new transparent concepts and a 100% focus on the end customer.

We have become a leading global provider of loyalty concepts, solutions, and technology. Our proprietary technology and global private cloud solutions are state-of-the-art and market leading. Our SaaS solutions are used by some of the largest global programs such as Etihad Airways, SAS EuroBonus, Accor Hotels, and we are close partners with Visa, Mastercard and American Express.

Main responsibilities:
In close collaboration with the IT team you will from day 0 be heavily engaged in maintaining / developing:
- PHP web applications and proprietary systems based on the Laravel framework
- systems that use MySQL as a database engine
- our suite of APIs
- integrations with customer APIs/SFTP servers etc.
- our main product LoyalTfacts
From time to time you will encounter frontend oriented tasks.

Required profile:
- Most importantly you are a nice person! You know how to work independently but you also enjoy working in a team contributing with new ideas, and make your views known. You thrive on a high degree of freedom with responsibility. You have a sense of humor, are energetic, persistent and a team player.
- As a professional you are talented, inquisitive and creative. You have a relevant educational background from IT and experience working with Backend Development.
- It is a requirement that you have relevant experience working with PHP, MySQL and Linux. Preferably (but not a requirement) you also have some experience in working with Laravel, nginx, certificates, REST, XML, SOAP, JSON, SSL, SSH, curl, encryption and hashing. You must be able to, and enjoy, working extremely structured, as we work under a host of data privacy and security regulations including PCI DSS and operate under supervision of the Danish Financial Authority (Finanstilsynet).

The company offers:
- The position is permanent and full-time, meaning 37 hours.
- The salary will range from 4.000–6.722 Euros/month, depending on qualifications.
- You will be part of a great team and an exciting innovative company on the fast track forward. We are currently a team of 13 motivated colleagues. You will be an important part of the next stage in our journey. On June 3rd, our company completed an IPO on Nasdaq First North in Stockholm, giving us the resources to scale up significantly.
- The solutions you will help create will be used by market leading brands across the globe. You will problem solve at a high level while working with the world’s largest payments brands.
- The compensation package, which is negotiated individually, consists of a fixed salary, phone, internet, PC, lunch, unlimited black coffee, sodas, Piratos and an attractive pension scheme.
- Work from home is a possibility.

How to apply: please submit your written application by clicking the apply online via this link: https://www.jobindex.dk/ansoegninger/ny/1468972, including a CV with a photo, ASAP. You will be asked to provide a criminal record certificate.
