Position:  CNC Programmer 
Location:  NORWAY, Gressvik 

Stabil Verktøyindustri AS (www.stabilverktoy.no) is a machining and tool making company established in 1947. Traditionally it has had a niche in larger machinery than most competitors, but now the technology adaptation and automization have become some of its key success factors.

Due to the further growth expected, Stabil are looking for CNC Programmers to help the company both in introducing new technology and additional capacity. The company has very ambitious plans to modernize and implementing new technology and continuous learning, training and development is a part of the company culture.

Main responsibilities:
• Program, set up and monitor machining of products in a 5-axis milling machine
• Programming on MasterCam

After an initial period, when both skills and system are developed and validated, working remote with flexible hours may be an option.

Required profile:
• Will to learn and develop
• CAM (MasterCam) for CNC milling
• Experience in 5 axis
• English or Norwegian language

The company offers:
• Working hours: 37,5 hours/week
• Salary: 220 NOK/hour (ca. 21,3 EUR/hour) + supplement according to experience (average salary per month/gross: 33.000 NOK – ca. 3200 EUR)
• Help to find accommodation – cost per month: 7.000-13.000 NOK (ca. 680-1260 EUR)

How to apply: please send your CV in English to bard.gjertsen@stabilverktoy.no and euresPToutgoing@iefp.pt

VERY IMPORTANT! write in the e-mail Subject "589057798 – CNC"
