

Position: Newly Graduates within IT, automation, and robotics

Location: DENMARK, Kalundborg

Novo Nordisk is a global healthcare company employing 47,000 employees worldwide. We are hiring graduates to help optimize and improve our production through development and implementation of state-of-the-art technology. For this we need the brightest and most innovative minds. You will work alongside specialists from various fields within biotechnology, technology, and innovation who will be your mentors to guide you through our digital transformation journey. You will be a fully-fledged member of the team from day one, and we count on you to present your ideas. You will gain extensive knowledge in all aspects of technology and solution development, and work with stakeholders from all over the world.

Main responsibilities:

- Participate in projects around improvement of our manufacturing setup.
- Take part in cross functional activities advancing the use of innovative novel and existing technology.
- Oversee the design, development, and maintenance of operations information systems to monitor manufacturing efficiency.

Required profile:

- Newly graduated with a bachelor or master's degree within e.g., IT, Automation, or Robotics.
- Like to build on your skills and experience together with highly dedicated colleagues.
- Proactive, solution-oriented, like to share your knowledge and collaborate effectively.
- Work systematically and with the ability to develop and implement practical actions to deal with issues.
- Want to play a role in strategic projects, where you will be part of setting the direction for the future Industry 4.0.
- Proficient oral and written communications skills in English.
- A strong desire to achieve knowledge of manufacturing processes and equipment, and ability to handle a steep learning curve.
- You thrive in ensuring that all your work is well documented.

The company offers:

- Permanent position.
- EUR 7.000 – 10.000 /month brutto.
