

Position: Process Scientist and Process Engineer Pipeline

Location: DENMARK, Kalundborg

Novo Nordisk is a global healthcare company employing 47,000 employees worldwide.

Main responsibilities:

We are looking for someone who is motivated by and enjoys analyzing data, making sense of that data using descriptive and prescriptive analytics and, developing and maintaining process monitoring systems. Specifically, you will: Analyze large amounts of data for extracting correlation and causation for process understanding; Analyze and understand data from quality control (QC) analyses; Develop, maintain, and recommend statistical process control charts for process monitoring; Use a science, data-based approach for quantifying process deviations; Use a team-based approach for recommending process improvements-optimizations; This job gives you a great opportunity to play a part in shaping the future of manufacturing across the organization, in close collaboration with teach-transfer in Novo Nordisk.

Required profiles:

Process Scientist candidates should have the following or developing qualifications:

- An MSc in Chemistry, Biochemistry, Protein Chemistry, Biophysical Chemistry or (Bio-) Analytical chemistry.
- Ability to independently understand scientific principles required for manufacturing pharmaceutical substances related to the interaction of chemistry and equipment.
- Ability to monitor data and extract information.
- An appetite for connecting the understanding of process science to product quality.

Process Engineer candidates should have the following or developing qualifications:

- An MSc in chemical, industrial or mechanical engineering (or a BSc with some professional experience).
- Ability to analyze data and independently extract information.
- An appetite for solving complex problems applying a systems approach to manage complexity and reach feasible applicable solution.

For both Process Engineers and Process Scientists it is key that you understand how to convey complex information to varying audiences and thereby, explain the purpose to get everyone onboard. In addition, you should have proficient oral and written communications skills in English.

The company offers:

- Permanent position.
- EUR 7.000 – 10.000 /month brutto.
