

Position: Electrician / Mechatronics and Electronics technician

Location: ALEMANHA (Frankfurt)

Germany's largest airport never sleeps. Just like our baggage conveyor system. Together with your team, you make sure that our technology runs perfectly and that all passengers can happily receive their luggage at their destination.

We are looking for you as a professional in electrics, mechatronics, or electronics for our baggage conveyor system, which is unique in the world.

Main tasks / responsibilities:

- Independent inspection, maintenance, and repair of the baggage handling system
- Troubleshooting and qualified cause analysis
- Ongoing quality control and assurance of our system
- Participation in the commissioning and technological development of the baggage system

Required profile:

- Completed vocational training as an electrician, mechatronics technician, electronics technician
- Ideally knowledge in the field of automation, control, or conveyor technology
- German language skills (level B1 required)
- Ability to work in a team and a high degree of initiative and independence
- Desire to solve complex technical tasks and use new technologies or methods
- Good MS Office skills
- Willingness to work rotating shifts
- Class B driver's license

The company offers:

- Salary: € 2,200 to € 2,400 net per month (possible shift bonus for Sunday/holiday/night shift)
- Employer-funded pension
- Job security and good prospects in a dynamic environment
- Good development/earning opportunities and numerous qualification programs, such as further training
- Free job ticket in the RMV, free employee parking or job bike, staff petrol station with reduced tariffs, canteen
- Childcare near the airport
- Numerous corporate benefits
- Accompaniment of first steps in Germany (authorities, accommodation)
