Work in Denmark with

November 14th

13:00 WET
(estimated 60 minutes)

Online (MS Teams)

Novo Nordisk is a global healthcare and life science company, founded in 1923 and headquartered in Denmark, just outside Copenhagen.

For over 100 years, we turn ideas into innovative medicines and delivery systems (like our insulin pens) for people living with serious chronic diseases. Our treatments today are benefiting millions of people living with diabetes, obesity, hemophilia and growth disorders.

With more than 69,000 people in 80 offices around the world, we're marketing our products in 170 countries.

... a life-changing career at Novo Nordisk in Denmark

Do you want to know more about the **existing career opportunities** for you?

- Pharma Research & Development
