

**Position:** Junior Automation Engineers Pipeline

**Location:** DENMARK, Greater Copenhagen Area

### Main responsibilities:

Due to the expansion of our activities in all business areas and sites, we are currently seeking talents for many different teams across Novo Nordisk, such as Advanced automation, Manufacturing Execution Systems (MES), and Collaborative- and industrial robotics. We are looking for someone with an innovative and solution-oriented mindset. As you will be working and collaborating with people from various departments in the organization, it would be preferable that you are ready to take the lead on deploying solutions that bring value.

### Required profiles:

To apply to our pipeline, we expect that you:

- are newly graduated with a bachelor's or master's degree within e.g., IT, Automation, or Robotics.
- would like to build on your skills and experience together with highly dedicated colleagues.
- are proactive, solution-oriented, like to share your knowledge and collaborate effectively.
- work systematically and with the ability to develop and implement practical actions to deal with issues.
- have proficient oral and written communications skills in English. Danish language skills are great advantage.

As documentation according to Good Manufacturing Practice (GMP), rules are part of our daily work, it is important that you thrive in ensuring that all your work is well documented.

### The company offers:

- Permanent position.
- Negotiable salary. Min. 4000Eur /month gross.
- Relocation package.
