

Position: Mechanical Engineer / Certified Electrician (1)

Company: IWT LTD - MALTA (Msida)

We are looking for a Mechanical Engineer to work on ELV systems (alarms, automation, access devices, CCTV, monitors etc...).

Main tasks:

- Prospective candidates must deal with the implementation of CCTV, alarms, access control and so forth
- Must co-operate with our installation and commissioning team
- Must be conversant with ELV devices installation, commissioning, support and servicing of the same
- Work on industrial and commercial electrical installations including canalization, cable pulling, cable dressing and cable terminations

Required profile:

- An Electricians/engineering qualification would be considered an asset
- Methodically good with wiring electrical control panels, instrumentation, Extra Low Voltage (ELV) and automation systems
- Organized, ambitious, display a positive attitude and are enthusiastic to learn, team player
- Good command of written and spoken English
- Need to work flexible hours inclusive of overtime and emergency support whenever required
- Need to take on in-house courses and certifications whenever required
- Clean police conduct is compulsory

The company offers:

- Indefinite contract, full-time
- 2500 to 3500 EUR per month
- Accommodation is provided for the right applicant; however, this needs to be discussed accordingly
- Health Insurance
