

Position: Concrete workers

Location: Lithuania, Kaunas

Ewcon is an innovative company specializing in concrete pouring works. We pour the complex, high architectural requirement constructions: stairwells, lift shafts, overlays, columns, walls, pools and other constructions. The concrete brigades have extensive experience with the sliding mould systems, decorative and traditional concrete, and our superior quality and professionalism is guaranteed.

Main tasks:

- Assembling, installing, and dismantling formwork systems using traditional or modular formwork solutions. Residential and Commercial construction;
- Placing, fixing, and securing reinforcement steel (rebar (reinforcement (steel fixer))) according to structural design specifications;
- Preparing, pouring, compacting, and finishing concrete using manual and mechanical tools to achieve required strength, level, and surface quality;
- Operating concrete pumps, vibrators, screeds, and related equipment in compliance with safety regulations;
- Performing surface treatment and finishing works;
- Ensuring compliance with architectural and structural requirements, including high-precision or complex concrete elements, all according to adhering.

Required profile:

- Professional training school;
- At least one year of relevant work experience during the last three years;
- Language skills: English or Russian, level B1 (intermediate);
- Driving license.

The company offers:

- Fixed term contract;
- From 1700 EUR;
- 40 working hours per week (and 8 per day);
- Accommodation and transportation to the workplace will be provided by the employer.
