

**Position:** Electrician- Meltshop area

**Location:** Boden, Sweden

Are you ready to work with some of the most advanced electrical systems in heavy industry? At Stegra, we're proving that sustainable steel production is possible – and as an Electrician you'll be at the heart of making it happen. This is your chance to use your skills to keep cutting-edge equipment running smoothly, solve complex challenges, and contribute directly to building a greener future for steel.

As an Electrician in our Meltshop team, you'll be part of the Electrical Maintenance unit, reporting to the Electrical Maintenance Manager while working with some of the most demanding and powerful systems in steelmaking. Your role will be key in ensuring safe, reliable, and efficient operations by carrying out preventive and corrective maintenance on low- and medium-voltage systems that keep the meltshop running smoothly.

**Main Tasks:**

- Perform preventive and corrective electrical repairs and maintenance in low- and medium-voltage systems.
- Troubleshoot electrical issues using tests, technical diagrams, and drawings to identify and correct faults.
- Program and configure electrical control systems.
- Inspect, repair, and replace transformers, circuit breakers, wiring, fixtures, and other electrical components.
- Contribute to the optimization of maintenance programs and train operators in basic maintenance tasks.
- Ensure safe working conditions through Lock Out-Tag Out procedures and good housekeeping practices.
- (Optional duty) Participate in Stegra's internal rescue team after specialized training and medical clearance.

**Required profile:**

- Significant experience in heavy industry; experience in the steel production industry is highly advantageous.
- Secondary education in electrical engineering or equivalent qualification.
- Strong understanding of industrial automation systems (preferably Siemens or Honeywell).
- Documented qualifications in workplace safety and health (e.g., ESA / OSHA) and knowledge of Swedish/EU safety standards.
- Ability to work independently with precision and to handle shift work.
- Good knowledge of English; Swedish is a plus.
- Willingness to take part in specialized rescue service training (previous experience is a plus).

EURES mobility supports may be available if you apply to this vacancy. Please check [www.iefp.pt/eures](http://www.iefp.pt/eures)

**The company offers:**

- Full-time position (average of 35 hours) - shift work, weekend work
- 6 months' probation > then permanent contract (more than 12 months)
- Competitive salary and benefits package in line with Union-negotiated agreements (40 500 SEK monthly ± 3726 EUR)
- 25 days of annual leave, in accordance with Swedish labor standards.
- Full relocation support, including housing assistance, travel arrangements, and relocation compensation.
- Visa sponsorship where applicable.
- Modern, purpose-built facilities in Boden with a focus on safety, sustainability, and innovation.
- A supportive and inclusive work environment where everyone is encouraged to grow and thrive.
