

Position: Aquaculture Consultant - 1

Location: IL-Mosta, Malta

A position within AquaBioTech Group has arisen for a suitably qualified person to work on a variety of projects within the Group's diverse portfolio. The position advertised is for the post of an Aquaculture Consultant, ideally, but not essential, with knowledge of recirculation aquaculture system (RAS) technologies.

Main responsibilities:

- Support international aquaculture consultancy projects, including feasibility studies, risk assessments, due diligence reviews and technical support.
- Provide biological and technical input for the design of hatcheries, nurseries, grow-out facilities and RAS systems.
- Assist with project implementation, commissioning and post-commissioning activities.
- Work with a variety of aquatic species, including fish, shrimp and shellfish.
- Collaborate with multidisciplinary international teams and contribute to technical documentation.
- Travel extensively to client sites worldwide, with the possibility of longer-term overseas assignments.

Required profile:

- A successful candidate is expected to have at least a M.Sc. in Aquaculture, Fisheries, Oceanography or a related scientific field.
- Experienced based candidates (3-5 years) are also encouraged to apply.
- The selected candidate will have to speak and write English fluently.
- Knowledge of any another language (such as French) will be considered an asset.
- The selected candidate must have a clean EU/EEA/UK passport OR be a third-country national (TCN) presently residing in the EU with no travel restrictions.
- Possession of a clean driving licence.

The company offers:

- 3 year fixed-term contract with the potential for extension
- Possible accommodation support package
- Training provided
- Salary 20.000 to 35,000 Euro per year

How to apply: CVs and a covering email are to be sent by email to eures.recruitment.jobsplus@gov.mt and should be written in English. Please quote the vacancy name and number "450470" in your email.
