

Position: Rope Access Technician/Supervisor

Location: Roosendaal, **Netherlands**

Do you possess an IRATA Level 3 certificate, are you technically skilled, and do you enjoy working at heights? Do you enjoy leading and supervising operational teams, with a keen eye for safety and quality, and do you also like to roll up your sleeves? Furthermore, do you have an affinity for technical work and various industries, and are you up for working on the most challenging projects in hard-to-reach locations, such as at height and in confined spaces? Then this position as Rope Access Technician/Supervisor at Sky-Access B.V. is exactly what you are looking for!

Main Tasks:

- Independent execution of technical insulation work in the areas of heat, cold, sound, and fire protection
- Processing various insulation materials such as mineral wool, rubber, and PIR (polyethylene terephthalate)
- Installation of molded insulation components on construction sites and in technical systems
- Support in the assembly of molded components in the workshop (cutting, preparation)
- Quality assurance of your completed work
- Contact person on the construction site for technical questions relating to the trade

Required profile:

- Valid IRATA level 3 certificate (hard demand) who enjoys being physically active in their work
- Affinity for working safely, the various industries, and technology
- Flexible and positive work attitude, a team player
- Technical insight and enjoys working with their hands
- Technical background
- Capabilities and ambition to take responsibility for rope safety on the projects
- Initiative, both solicited and unsolicited, and provides advice on IRATA-related knowledge, skills, and methodologies
- Willing to work occasionally at irregular times (weekends/nights)
- Good command of English
- B driving license
- VCA-VOL certification (or willing to obtain)

EURES mobility supports may be available if you apply to this vacancy. Please check www.iefp.pt/eures

The company offers:

- Contract duration: Intention is a permanent contract. First year a fixed term contract of 12 months (will be changed into a permanent contract if skills, performance and work attitude are meeting company demands) Trial period: 1 month
- Salary range (gross/month): €3.500 – €4.000 in accordance with the Collective Labour Agreement for the Small Metal Industry
- Housing: Employer offers suitable housing for the first period (to help the foreign colleague) – for this a contribution of the costs are for the account of employee (cost indication: between € 500 and € 600)
- A varied and challenging job within an enthusiastic and close-knit team
- Ample opportunities for personal development (IRATA upgrades, courses, advancement to project manager, IRATA part-time roles)
- Working on unique and technically challenging projects, both nationally and internationally
- Support and guidance in your career and certification processes
- A no-nonsense company culture with a focus on safety and quality
