

Position: Periodontal Prevention Assistant

Location: The Netherlands (Steenwijk)

Steenwijkerdiep is a dental practice in Steenwijk. Our modern group practice offers a broad scope of dental care, delivered by a multidisciplinary team of dentists, dental hygienists, and dental assistants. Using advanced equipment and high-quality materials, we strive to provide the highest standard of care.

Main tasks and responsibilities:

- In your role as Periodontal Prevention Assistant, you will work closely with dentists and dental hygienists.
- You will have an important role in preventive care, patient education, and periodontal maintenance treatments.
- You will work in a professional and supportive environment, with access to modern equipment and clear clinical protocols. Our patients will visit you for sealants and polishing, removal of plaque and calculus, fluoride treatments, dental X-rays, and impressions.
- Your responsibilities include carrying out these preventive and periodontal treatments, assisting both the dentist and the dental hygienist, and informing and motivating patients to improve and maintain their oral health.

Required profile:

- Relevant dental education as a prevention assistant or periodontal prevention assistant
- A valid certificate or diploma allowing you to work independently within your scope of practice
- Experience as a prevention assistant is preferred, but motivated starters with the right qualifications are also welcome to apply

The company offers:

- A salary between €2800 and €3600 gross per month, depending on qualifications, experience and development
- Annual contract (32 - 40 hours p/w) with intention for a permanent contract
- Travel allowance
- Excellent secondary conditions
- Paid vacation days plus 8% holiday allowance
- Staff discounts
- A pleasant working atmosphere where quality of care and teamwork are highly valued
- Opportunities for professional development and further training
- Support in finding accommodation in The Netherlands
