

Position: CNC Operators

Location: Boden, Sweden

Nova Industri offers extensive maintenance and repair services for a variety of machines and equipment. Regardless of whether you are in crusher production, contracting or haulage, we can help you keep your equipment in top condition.

Main tasks:

We are looking for someone with several years of experience in milling, as well as operating and programming 5-axis CNC machines. You can produce a finished component based on technical drawings and work instructions, and you have a good understanding of machine operation and programming. At Nova Industri, you will work with advanced machinery in a technology-driven environment.

Required profile:

- Upper-secondary vocational training in an industrial field or equivalent experience.
- Several years of experience in milling and working with 5-axis CNC machines.
- Experience in offline programming.
- A good ability to read and interpret technical drawings and work instructions.
- The ability to understand technical documentation.
- A strong commitment to maintaining a safe, clean and well-organized work environment.
- Experience programming and CAD/CAM programming and Mastercam is also an advantage.
- Since our work environment is international, the ability to communicate in English is beneficial
- A Category B driving licence and an overhead crane certificate are also advantageous.
- An understanding of and experience in applying occupational health and safety regulations, as well as experience working with personal protective equipment working with control systems such as Fanuc, Heidenhain, NUM, Siemens and Tebis is an advantage.

The company offers:

- Permanent contract;
- 40 hours per week;
- Salary between 30 000 – 35 000 SEK/month before tax

How to apply: Please send your CV in English to ansokan@novaindustri.se with Cc to euresPToutgoing@iefp.pt A/C Alexandra Lhansol, referring in the subject of the email "CNC Operators"
